Forex.

Trading Platform requirements

MetaTrader 4

MetaTrader 4, PC specifications:

The Client Terminal can operate under Microsoft Windows 7/8/10. A processor that supports SSE2 instruction sets is required for operating as well. Other hardware requirements depend on terms of using the terminal — load from running MQL4 applications, number of active instruments and charts, etc.

MetaTrader 4, Android specification:

To install MT4 on the gadget with Android OS, the Android 5.0 version or a higher one is required. The MT4 Application for Android requires 9.6 MB of free space on your phone.

MetaTrader 4, IOS specification:

To install MT4 on the gadget with iOS, the iOS 9.0 version or a higher one is required. The MT4 Application for iOS requires 22.7 MB of free space on your phone.
